

Kia ora Rereata

We at the *East Coast Hawke's Bay Te Tairāwhiti ki Te Matau-a- Māui Conservation Board* congratulate Te Urewera Board on the intent of Te Kawa o Te Urewera.

As Manuhiri we are particularly warmed by the inclusive nature of the document throughout. It is encouraging to be presented such a future focussed document incorporating tourism, education and all tribal entities.

We look forward to our ongoing relationship with Te Urewera and the Te Urewera Board and are particularly interested in seeking education concerning traditional values and new technologies. We feel that this document can set a precedent not only in New Zealand but throughout the world.

All the best
Penny
